

Make Up Policy

- The only time that lessons will be made up is in the event of cancellations due to bad or inclement weather, or due to illness that prevents the child from getting in the water. If a class is cut short due to weather, anything over 18 minutes is considered a full class.
- In the event of a lesson cancellation due to bad weather the lesson will be made up that following Friday at the assigned class time. In the event of multiple cancellations due to bad weather the class will be made up on Saturday and/or Sunday, at a time arranged with the instructor.
- For absences due to sickness a written and signed doctor's note stating that they are unfit to swim is required. The instructors will then work with you to set up make ups or transfer your classes to another session of your choosing.
- There is no makeup for pre-team; if it is raining the students should still come because they will be doing dry land activities and lectures concerning proper stroke technique.

Thanks,

Comets Swim School Staff
